## Hoist motors

Output range: 1.5 up to 400 kW

### Reproductions e.g.

- Siemens - type: hOR, hR, 1RT bis 1LT
- AEG - type: AMK, AMH, DNK, DNKV
- Schorch - type: Sh, CV5
- steel mill application according to HDAS and H1DS in steel construction
- eddy-current brake

The reconstructed drives are completely identical with already existing motors, with regard to fixing and shaft dimensions as well as electrical data.

The advantage - they can be replaced without any modifications.
